

Experiment 8 Configuring GRC / Risk Dashboards for Management Reporting

08/08/2026

Aim

To review the Eramba GRC dashboard and use it to provide management-level visibility into tasks, risks, risk scores, and risk treatments.

Procedure

1. Log in to the Eramba application.
2. Navigate to **Dashboard** from the left-side menu.
3. Review the available dashboard sections such as *Expired Tasks*, *Today Tasks*, and *Future Tasks*.
4. Review the *Asset Based Risks Matrix* section.
5. Navigate to **Risk Management** → **Business Risks**.
6. Review the list of configured business risks.
7. Verify the **Risk Analysis Score**, **Risk Analysis Classification**, and **Risk Treatment** for the listed risks.
8. Use the displayed information as a basis for management risk reporting.

Output

The GRC dashboard and Business Risks register provide a centralized view of GRC activities, risk scores, and risk treatments.

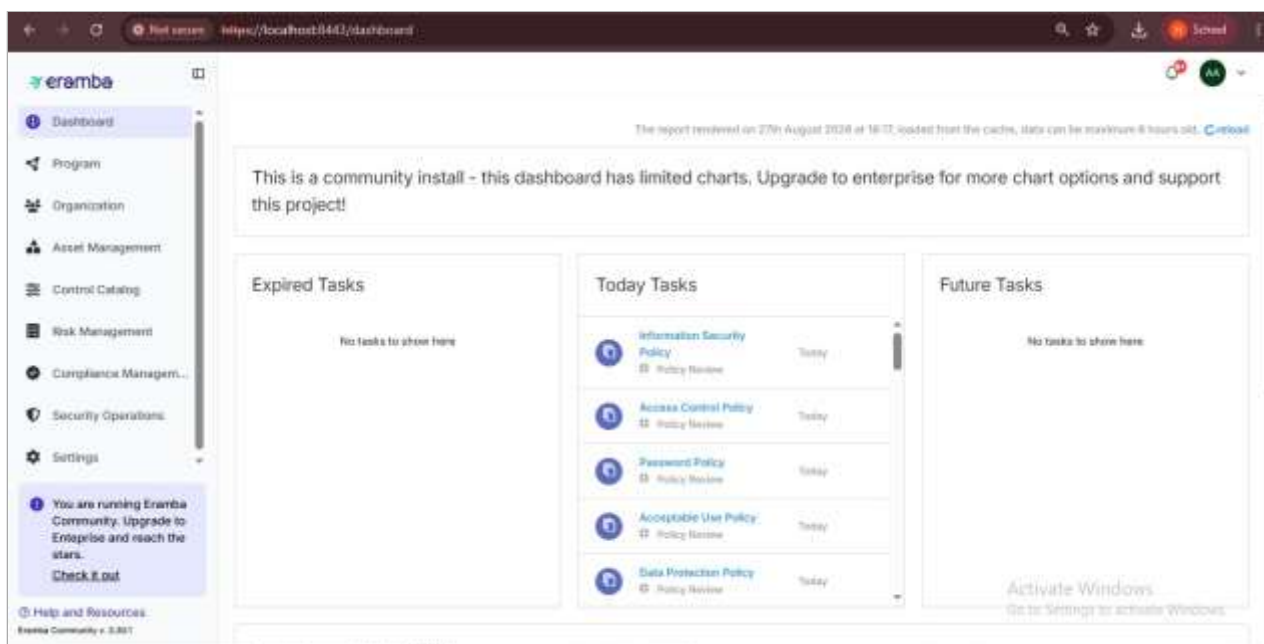

Fig 8.1 – Eramba GRC Dashboard View (Tasks Breakdown)

The screenshot shows a web application interface for 'Business Risks'. At the top, there are tabs for 'Business Risks' and 'Reviews'. Below the tabs, there's a header bar with 'Business Risks' and an 'Add Item' button. A filter bar shows 'All Items' and 'Views'. The main table has columns: 'Next Review Date', 'Applicable Business Units', 'Processes', 'Risk Analysis Classification', 'Risk Analysis Score', and 'Risk Treatment'. The table contains 10 rows of data, all with a 'Next Review Date' of '2027-08-27' and a 'Risk Treatment' of 'Accept'. The 'Risk Analysis Classification' column is split into 'Likelihood' and 'Impact' sub-columns. A watermark 'Activate Windows' is visible in the bottom right corner.

Next Review Date	Applicable Business Units	Processes	Risk Analysis Classification		Risk Analysis Score	Risk Treatment
2027-08-27	Management		Likelihood (Low)	Impact (L)	4	Accept
2027-08-27	Operations		Likelihood (Medium)	Impact (L)	6	Accept
2027-08-27	Operations		Likelihood (Medium)	Impact (L)	4	Accept
2027-08-27	Legal & Compliance		Likelihood (Medium)	Impact (L)	5	Accept
2027-08-27	Finance		Likelihood (Medium)	Impact (L)	5	Accept
2027-08-27	Information Technology		Likelihood (Medium)	Impact (L)	5	Accept
2027-08-27	Operations		Likelihood (Medium)	Impact (L)	5	Accept
2027-08-27	Information Technology		Likelihood (High)	Impact (H)	6	Accept
2027-08-27	Information Technology		Likelihood (High)	Impact (H)	6	Accept
2027-08-27	Information Technology		Likelihood (High)	Impact (H)	6	Accept

Result

The GRC dashboard was successfully accessed and reviewed for management reporting. Business risk information, including risk scores and treatments, was available for management review. The Asset Based Risks Matrix could not be displayed because of the current risk calculation configuration.
