

EXPERIMENT 2 — DEFINING GOVERNANCE STRUCTURES (ENTITY TYPES & DATE:08/08/2026 ENTITY GENERATION)

Aim

To establish organizational governance structures in Eramba by creating business-unit entities and assigning responsible contacts.

Procedure

1. Open Organization → Business Units.
2. Click + Add Item and create IT Department.
3. Enter: Responsible for information technology infrastructure, systems, networks and IT security.
4. Set Business Unit Contact = Admin Admin and save.
5. Create Human Resources with a description covering employee management, recruitment, training and personnel activities.
6. Set its contact to Admin Admin and save.
7. Create Finance Department with a description covering financial management, accounting, budgeting and reporting.
8. Set its contact to Admin Admin and save.
9. Verify all three business units in the list.
10. If a separate Entity Types screen is unavailable in the Community Edition, use Business Units as the organizational entities for the demonstration.

Output:

Business Units							+ Add Item
All Items (0) Business Units (0/10) 0 items 4							Filter Sort Columns
☐	Dynamic Status	Name	Processes	Business Unit Contact	Potential Liabilities	Asset Risks	Business Risks
☐		project management team	0	Admin Admin	0	0	0
☐		security team	0	Admin Admin	0	0	0
☐		Finance Department	0	Admin Admin	0	0	0
☐		Human Resources	0	Admin Admin	0	0	0
☐		IT Department	0	Admin Admin	0	0	0
☐		Admin	0	Admin Admin	0	0	0

IT Department
